

This calendar is designed primarily for school personnel as they schedule events and activities such as exams, assemblies, field trips, special events, evening programs and other activities.

The Jewish day begins and ends at sunset, not at midnight. The year is based on a lunar-solar cycle. This is why Jewish holidays always fall on a different calendar day each year. It also explains why consulting most commercial calendars for a specific Jewish holiday results in confusion—each holiday really begins at sunset the evening before. Some commercial calendars note this, some don't.

Abstaining from school, work, and other secular activities is part of the observance of the Holy Days listed inside this calendar.

Depending on the degree of personal observance, the Jewish holidays and Sabbath might include abstention from work, school, and other secular activities such as special events, dances, and sports events.

While calendar-coincident in some years, Chanukah and Christmas are not comparable or related holidays in any way.

Shabbat (Sabbath)

The Jewish Sabbath is observed every week. It begins every Friday at sunset and concludes at sunset on Saturday. Since it reflects God's rest on the seventh day of the week following the events of the creation, Shabbat is considered to be a day different from the work week, dedicated to prayer, reflection, and rest.

Observant Jews are unable to participate in secular events occurring between sunset on Friday and sunset on Saturday.

The Jewish Federation of New Hampshire (JFNH) is the central communal organization for the New Hampshire Jewish community. JFNH is dedicated to preserving and enriching Jewish life throughout New Hampshire, and perpetuating our identification with the State of Israel.

JFNH is the only community body with representation from almost every formal Jewish organization: large and small, religious and secular, social, political, cultural and educational.

JFNH is the mechanism through which the New Hampshire Jewish community is connected to other Jewish communities and the broader Jewish agenda throughout the world. Through The Jewish Federations of North America (JFNA), the NH Jewish community is connected to more than 800 other Jewish communities across the continent.

JFNH is viscerally connected to the State of Israel in a number of ways including the New Hampshire-Hof Hacarmel Connection, Israel Experience, and Israel Emissary program.

Calendar of Jewish Holy Days for School Years 2018- 2021 / 5778-5781

During observance of most of these major holidays, work is traditionally prohibited. As a result, Jewish individuals may be absent from work and school.

All Jewish holidays begin at sunset and extend until the next sunset.

The holidays marked with (***) *do not* require abstaining from secular activities. However, these holidays frequently involve family, community, or synagogue events.

Sensitivity in avoiding conflicts is always appreciated.
